

To start,

# HAPPY BIRTHDAY

Congrats, you have survived another year!

You have waited 52 weeks for this special day, so make every second count. Hope your day is filled with happiness and joy!

Inside this box you are holding is a kit...something I like to call a "Birthday in a Box"

Simply follow the directions below and have fun!

**#1 – Open the box (This part is essential)**

**#2 – Place the hat on your head and stick the ribbon on your shirt. These items must be worn ALL day to ensure that random people ~~laugh~~ wish you a happy birthday.**

**#3 – Ready to party? Blow up the balloons, toot the horn, throw up the confetti, and whack that wee piñata with a great big stick**

**#4 – And finally, when you eat a piece of cake later and blow out your candles, don't forget to make a wish!**

# HAPPY BIRTHDAY
